31 *Attorneys for Plaintiff*

32 **UNITED STATES DISTRICT COURT**

33 **DISTRICT OF NEVADA**

34 UNWIRED PLANET LLC, a Nevada
35 limited liability company,

36 Plaintiff,

37 v.

38 APPLE INC., a California corporation,

39 Defendant.

40 Case No.: 3:12-CV-00505-RCJ-VPC

41 **JOINT CASE MANAGEMENT
42 REPORT**

1 Pursuant to the Court's January 17, 2013, Minute Order (Dkt. #34), Plaintiff UNWIRED
 2 PLANET LLC ("Plaintiff"), by its attorneys, and Defendant APPLE INC., ("Defendant"), by its
 3 attorneys, submit the following Case Management Report.

4 **A. Nature of the Case and Description of the
 5 Principle Factual and Legal Disputes**

6 As described more fully below, this is a complex patent case in which Plaintiff asserts ten
 7 patents (Dkt. #1), and Defendant asserts non-infringement and numerous invalidity and
 8 unenforceability defenses and counterclaims (Dkt. # 29).

9 **THE PARTIES**

10 Plaintiff Unwired Planet LLC is a Nevada limited liability company having a principal
 11 place of business at 226 California Ave., Reno, NV 89509. Defendant Apple Inc. is a
 12 corporation organized under the laws of California with its principal place of business at 1
 13 Infinite Loop, Cupertino, California 95014-2083.

14 **THE PATENTS**

15 Plaintiff asserts ten patents against Defendant:

- 16 • United States Letters Patent No. 6,317,594 ("the '594 patent"), entitled "System
 17 and Method for Providing Data to a Wireless Device upon Detection of Activity
 18 of the Device on a Wireless Network," issued to inventors William E. Gossman
 19 and Peter J. Hartmaier on Nov. 13, 2001.
- 20 • United States Letters Patent No. 6,317,831 ("the '831 patent"), entitled "Method
 21 and Apparatus for Establishing a Secure Connection over a One-way Data Path,"
 22 issued to inventor Peter F. King on Nov. 13, 2001.
- 23 • United States Letters Patent No. 6,321,092 ("the '092 patent"), entitled "Multiple
 24 Input Data Management for Wireless Location-based Applications," issued to
 25 inventors James Fitch, David L. Hose, and Michael McKnight on Nov. 20, 2001.
- 26 • United States Letters Patent No. 6,532,446 ("the '446 patent"), entitled "Server
 27 Based Speech Recognition User Interface for Wireless Devices," issued to
 28 inventor Peter F. King on Mar. 11, 2003.
- 29 • United States Letters Patent No. 6,647,260 ("the '260 patent"), entitled "Method
 30 and System Facilitating Web Based Provisioning of Two-Way Mobile
 31 Communications Devices," issued to inventors Steve Dusse, Peter F. King, Bruce
 32 V. Schwartz, and Bruce K. Martin, Jr. on November 11, 2003.
- 33 • United States Letters Patent No. 6,813,491 ("the '491 patent"), entitled "Method
 34 and Apparatus for Adapting Settings of Wireless Communication Devices in

Accordance with User Proximity," issued to inventor Aldan Martin McKinney on Nov. 2, 2004.

- United States Letters Patent No. 7,020,685 (“the ’685 patent”), entitled “Method and Apparatus for Providing Internet Content to SMS-based Wireless Devices,” issued to inventors David A. Chen and Piyush Patel on Mar. 28, 2006.
- United States Letters Patent No. 7,233,790 (“the ’790 patent”), entitled “Device Capability based Discovery, Packaging and Provisioning of Content for Wireless Mobile Devices,” issued to inventors Rikard M. Kjellberg, Sheng Liang, Tomas G. Lund, William Chan, Ramakrishna Chinta, and Xinbi Chen on Jun. 19, 2007.
- United States Letters Patent No. 7,299,033 (“the ’033 patent”), entitled “Domain-based management of distribution of digital content from multiple suppliers to multiple wireless services subscribers,” issued to inventors Rikard M. Kjellberg, Sheng Liang, Tomas G. Lund, and William Chan.
- United States Letters Patent No. 7,522,927 (“the ’927 patent”), entitled “Interface for Wireless Location Information,” issued to inventors James Fitch, David Hose, and Michael McKnight on Apr. 21, 2009.

Plaintiff alleges that the '594, '831, '092, '446, '260, '491, '685, '790, '033, and '927 patents (collectively, the Asserted Patents) cover inventions relating to wireless devices, management of wireless devices, management of messages and data for wireless devices, location services, and speech recognition.

THE CLAIMS FOR PATENT INFRINGEMENT

Plaintiff asserts three bases for infringement of the Asserted Patents. First, Plaintiff alleges that Defendant directly infringes one or more claims of each of the Asserted Patents under 35 U.S.C. § 271. Second, Plaintiff alleges that Defendant indirectly infringes one or more claims of each of the Asserted Patents under 35 U.S.C. § 271(b). Third, Plaintiff alleges that Defendant indirectly infringes one or more claims of the Asserted Patents by contributory infringement under 35 U.S.C. § 271(c).

Plaintiff also alleges that Defendant's acts of direct, contributory and induced infringement have caused damage to Plaintiff, and Plaintiff is entitled to recover compensatory damages sustained as a result of Defendant's wrongful acts. Plaintiff alleges that, unless enjoined by this Court, Defendant will continue to infringe the Asserted Patents, continuing to damage Plaintiff and causing irreparable harm.

1 Plaintiff further alleges that Defendant has known about each of the Asserted Patents.
2 Plaintiff alleges that Defendant lacks justifiable belief that there is no infringement, or that the
3 infringed claims are invalid, and has acted with objective recklessness in its infringing activity.
4 Plaintiff alleges that Defendant's infringement is therefore willful, and Plaintiff is entitled to an
5 award of exemplary damages, attorneys' fees, and costs in bringing this action.

6 Defendant denies all of Plaintiff's allegations.

7 **THE AFFIRMATIVE DEFENSES AND COUNTERCLAIMS**

8 Defendant asserts nine affirmative defenses and parallel counterclaims against Plaintiff.
9 First, Defendant alleges that one or more claims of the Asserted Patents are invalid and
10 unpatentable under 35 U.S.C. § 101 *et seq.* Second, Defendants alleges that it has not and does
11 not infringe any valid and enforceable claim of the Asserted Patents, directly or indirectly,
12 literally or under the doctrine of equivalents. Third, Defendant alleges that Plaintiff's claims for
13 relief are barred in whole or in part by the equitable doctrines of laches, estoppel, and/or waiver.
14 Fourth, Defendant alleges that Plaintiff's claim for damages is limited by 35 U.S.C. § 286. Fifth,
15 Defendant alleges that, to the extent Plaintiff seeks damages for any infringement occurring prior
16 to its giving actual notice of the alleged infringement of the Asserted Patents to Defendant,
17 Plaintiff's claims are barred pursuant to 35 U.S.C. § 287. Sixth, Defendant alleges that
18 Plaintiff's claims are barred, in whole or in part, to the extent Defendant has an express and/or
19 implied license under one or more of the Asserted Patents and/or by the doctrine of patent
20 exhaustion. Seventh, Defendant alleges that Plaintiff is barred from recovering costs in
21 connection with this action under 35 U.S.C. § 288. Eighth, Defendant alleges that the Complaint
22 fails to state any claim against Defendant upon which relief can be granted. Ninth, Defendant
23 alleges that four of the Asserted Patents—the '033, '790, '685, and '260 patents—are
24 unenforceable because in each case individuals associated with prosecution of the patent
25 committed inequitable conduct in its procurement.

26

27

28

1 **B. Jurisdictional Bases for the Case**

2 This Court has subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).
3 Defendant also alleges that the Court has jurisdiction pursuant to 28 U.S.C. §§ 1332, 2201, and
4 2202.

5 **C. Parties Named in Complaint and Status of Service**

6 Apple Inc. is the only named defendant in the current action. Plaintiff has served
7 Defendant with the complaint, and Defendant has answered. Further, Plaintiff has answered the
8 counterclaims contained in Defendant's answer.

9 **D. Prospect of Adding Additional Parties and Amending Pleadings**

10 At this time, Plaintiff and Defendant do not anticipate that additional parties will be
11 added to the action or that the pleadings will be amended. The parties, however, have agreed
12 that any motions to add parties or amend the pleading must be filed by September 1, 2013.

13 **E. List of Contemplated Motions**

14 The parties contemplate summary judgment, *Daubert* and *in limine* motions upon the
15 close of discovery, and expect that there may be motions to compel to resolve discovery disputes
16 as well. The parties have agreed that any dispositive or *Daubert* motions must be filed within 45
17 days of the close of expert discovery. Further, the parties agree that any motions *in limine* are
18 due 30 days before trial.

19 **F. Pending Motions**

20 At this time, there are no pending motions before the Court.

21 **G. Status of Related Cases**

22 At this time, there are no related cases pending before other courts or other judges of this
23 Court. Plaintiff notes that it has sued Google in this judicial district on ten different patents in
24 Case No. 3:12-cv-00504 LRH-VPC.

25 **H. Supplemental Discussion of Necessary Discovery**

26 The parties anticipate that discovery will be voluminous in this case, entailing the
27 production of several million pages of documents. Moreover, numerous witnesses will be
28

1 deposed, in Reno, the Bay Area, and across the country and possibly around the world. The
2 parties are beginning to identify the location of those documents and witnesses.

3 The parties have agreed to certain discovery limitations and/or have competing proposals
4 for discovery limitations, as outlined below:

5 1. Interrogatories

6 The parties agree to a maximum of 60 interrogatories per side, including contention
7 interrogatories.

8 2. Depositions

9 *Plaintiff's Proposal:* Plaintiff proposes that each side is limited to a total of 165 hours of
10 fact witness depositions, inclusive of Fed. R. Civ. P. 30(b)(6) depositions and exclusive of non-
11 party fact witnesses and expert witnesses.

12 *Defendant's Proposal:* Defendant proposes that each side is limited to a total of 100
13 hours of fact witness depositions, inclusive of Fed. R. Civ. P. 30(b)(6) depositions and exclusive
14 of non-party fact witnesses and expert witnesses.

15 *Joint Proposal:* The parties agree that, other than Fed. R. Civ. P. 30(b)(6) and expert
16 witness depositions, each deposition of a fact witness is limited to a maximum of seven (7) hours
17 unless extended by agreement of the parties. The length of time for Fed. R. Civ. P. 30(b)(6)
18 witnesses may vary depending on the number of topics for which a witness is designated. No
19 personal deposition of a Fed. R. Civ. P. 30(b)(6) designee may duplicate the Fed. R. Civ. P.
20 30(b)(6) topics for that designee. The parties further agree to identify all corporate
21 representatives designated pursuant to Fed. R. Civ. P. 30(b)(6) at least five (5) business days
22 prior to the deposition. The parties agree that this case is at a preliminary stage and reserve the
23 right to seek modifications or amendments to this paragraph as discovery progresses.

24 3. Third-Party Subpoenas

25 Any party that serves a subpoena upon a third-party will simultaneously serve a copy of
26 such subpoena upon all parties. Moreover, any party that receives documents and/or
27 correspondence from a third-party pursuant to a subpoena will, as soon as possible, provide those
28 documents and/or correspondence to each other party.

1 4. Materials Relating to Expert Witnesses

2 The parties agree that draft expert reports and notes of experts are not discoverable or
3 admissible. This agreement applies to all such items regardless of whether they are in paper or
4 electronic form. This agreement does not apply to any information an expert relies upon in
5 forming his or her opinions.

6 5. Protective Order

7 The parties are conferring in good faith to present to the Court a joint protective order and
8 expect to file one within the next two weeks.

9 **I. Issues Relating to the Disclosure or Discovery of Electronically Stored Information**

10 The parties will produce electronically-stored information according to a modified
11 version of the Federal Circuit's Model Order Regarding E-Discovery In Patent Cases ("Model
12 Order"). The parties are currently meeting and conferring on the modifications and anticipate
13 filing the document within the next two weeks.

14 **J. Issues Related to Claims of Privilege or Work Product**

15 The parties jointly agree that privileged documents created after the filing of the original
16 Complaint in this action may be withheld without being identified to a requesting party, unless
17 the requesting party makes a particular request for post-Complaint privileged documents, with
18 request may be complied to or objected to, subject to review by the Court if necessary.

19 **K. Summary of Dates Proposed in the Parties' Joint Discovery Plan,
20 Including Dates Specific to Patent Actions**

21 A chart summarizing the dates proposed in the parties' Joint Discovery Plan (Dkt. # 33)
22 is attached as Exhibit A. That document indicates that there is a SPECIAL SCHEDULING
23 REVIEW REQUESTED and the basis is the complexity of the case - 10 patents asserted by
24 Plaintiff to infringe and the non-infringement, invalidity and unenforceability defenses raised by
25 Defendant.

26 **L. Both Parties Request a Jury Trial**

27 Plaintiff requested a jury for all issues so triable. (Dkt. #1.) Similarly, Defendant
28 requested a jury for all counterclaim issues so triable. (Dkt. #29.) Neither request is contested.

1 **M. Estimated Length of Trial**

2 The parties estimate that the trial for this case will last three – four (3-4) weeks.

3 **N. Date of Trial**

4 IT IS FURTHER ORDERED THAT THE TRIAL IS SET FOR _____,
5 8:30 a.m., CALENDAR CALL IS SET FOR _____, 8:30 a.m. in Reno Courtroom 6
6 before the Honorable Chief Judge Robert C. Jones.

7 **O. Prospects for Settlement**

8 At this time, the parties are not hopeful regarding the prospects of settlement. The
9 parties, however, will meet and confer from time to time and in good faith as instructed by the
10 Court and in accordance with the times outlined in attached Exhibit A.

11 **P. Additional Matters**

12 **a. E-Mail Service**

13 The parties have agreed that, to the extent possible in light of the volume of the
14 submission, all court filings, to the extent not served through ECF (e.g., filings under seal), will
15 be served via e-mail, and such service shall constitute proper service under Fed. R. Civ. P.
16 5(b)(2)(E). The parties have further agreed that each party may serve discovery, in lieu of other
17 service methods, by e-mail under Fed. R. Civ. P. 5(b)(2)(E). The parties have further agreed that
18 all service of written discovery and/or responses shall take place at or before 7:00 pm Pacific
19 time. If transmission of voluminous materials as an e-mail attachment is impractical, those
20 materials shall be sent via an FTP service or by overnight delivery. If service is by overnight
21 delivery, the serving party must use a service having the ability to “track” deliveries and verify
22 receipt.

23 **b. Page Limits for Claim Construction Briefs**

24 Opening claim construction briefs for all parties shall not exceed 125 pages, and
25 responsive claim construction briefs for all parties shall not exceed 75 pages. The parties reserve
26 the right, however, to propose that these page limitations be amended by the Court depending on
27 the number of claims that remain at issue at the time of briefing. The parties reserve the right to
28 meet and confer at a later time for the purpose of determining whether a *Markman* tutorial

1 hearing will be necessary in addition to the time the parties have allocated for the *Markman*
2 hearing (two days).

3 **c. Dispositive Motions**

4 Within 10 days after the completion of expert discovery, the parties will meet and confer
5 and/or seek a telephonic status conference with the Court to determine any appropriate limit on
6 the number and length of summary judgment motion(s).

7 **d. Pretrial Order**

8 Pursuant to LR 26-1(e)(6), the disclosures required by Fed. R. Civ. P. 26(a)(3) and any
9 objections thereto shall be included in the pretrial order.

10 **e. Substantial Completion of Document Production**

11 The parties agree that documents to be produced by the date specified for the substantial
12 completion of document discovery (July 1, 2013) will be limited to those documents responsive
13 to requests for production that are served by February 18, 2013.

14
